

## SADA Awards Criteria – Innovative Farmer of the Year

The South Australian Dairyfarmers' Association presents 3 awards at the annual DIAA Awards Gala, to recognize the contribution and effort of farmers over the past 12 months.

The award recipient is determined by a panel convened by the South Australian Dairyfarmers' Association. There will be an opportunity for all dairy farmers in South Australia to be nominated for this award. Nominees will be shortlisted for judging and a winner determined by the below criteria.

The following criteria is considered for judging the "*Innovative Farmer of the Year*" award;

### Criteria

- Describe two ways in which this farmer is currently using innovative technology or industry partnerships to improve the efficiency, sustainability and growth opportunities for the farm?
  - Example may include but are not limited to Dairy Herd Management, Marketing Strategies, Land and Water use, Production Technologies
- How do you feel this farmer is positioned to meet future business challenges?
- What sets this dairy business apart from other dairy farms?
- What innovative practices are being applied in the dairy business?
- Is this farmer actively contributing to the Australian Dairy Sustainability Framework?
