COVID-19 UPDATE JULY 2021

SADA is working closely with the departments to ensure all disruptions are kept to a minimum for all our members.

Please see new information for today – Wednesday 21 July 2021. For information regarding Primary Industries and COVID-19, including [all past industry updates](#), please visit PIRSA's [COVID-19 Primary Industries Portal](#). For the most recent information on SA's response to the Coronavirus pandemic visit www.covid-19.sa.gov.au.

Community activities including business, professional, educational, and academic and government activities must not be undertaken unless otherwise stated below.

People Must:

- Go home as soon as practicable once the stay-at-home restrictions are in place. A person has 24hrs to get home but must do so as soon as practicable. Where people usually transit between two or more homes, they must choose one residential premises and remain at that one place.
- Must travel the most direct and practical route and means when leaving the house for any essential reason. Note people can use public transport to do so.
- Reside at their usual place of residence for the stay-at-home period.
- Wear a mask covering their nose and mouth when in public places.
- Only leave their house for essential reasons including as an essential worker.
- Work from home where possible.

Reasons to Leave Home:

Authorised Worker (otherwise known as an essential worker)

- A person is permitted to leave home to undertake duties as an authorised worker. IMPORTANT the list of authorised workers has been updated since this morning. For the full list of authorised workers visit: https://www.covid-19.sa.gov.au/data/assets/pdf_file/0019/420391/Public-Activities-Level-5-Essential-Workers-List.pdf

IMPORTANT FOR PRIMARY INDUSTRIES

The list of essential workers has been updated to allow for the following:

- primary industries
- essential research activities for— the management and care of critical living resources and the equipment and materials they depend upon (eg. feeding, husbandry, hydrating, routine care and checks of animals, plants, microbes and cell lines in controlled environment);
- a factory or facility that is not able to be shut down without causing damage or loss to plant and equipment, or that is involved in the production of food, beverage, vehicle or other essential parts or supplies or any plant, equipment or parts necessary for the purpose of any other worker to undertake their duties;
- **Please note however that if activities can be postponed, they should be.**
